#### **GUIDELINES**

#### Residual Income Calculation

- Calculate the total gross monthly income of all occupying borrowers (see below)
- Deduct from gross monthly income the following items:
  - Federal and state income taxes (see below)
  - Proposed total monthly fixed payment (i.e. PITIA + MIP)
  - O Debt showing on credit report (including non-borrowing spouse debt)
  - Estimated maintenance and utilities (see below)
  - Municipal or other income taxes
  - O Job related expenses (e.g. childcare)
  - Retirement or Social Security
  - Gross up of any non-taxable Income
- Subtract the sum of the deductions identified above from the total gross monthly income of all members of the household of the occupying borrowers
- The balance is residual income

#### Gross Monthly Income Calculation

- Gross monthly income should be calculated only for the occupying borrower(s) consistent with the requirements of HUD Handbook.
- Do not include bonus, part-time, or seasonal income that does not meet the requirements for effective income as stated in HUD Handbook.
- Do not include income from non-occupying co-borrowers, co-signers, non-borrowing spouses, or other parties not obligated on the mortgage.

#### Monthly Expense Calculation

- If available, use federal and state tax returns from the most recent tax year to document state and local taxes, retirement, Social Security and Medicare. If tax returns are not available, may rely upon current pay stubs.
- For estimated maintenance and utilities in all states, multiply the living area of the property (square feet) by \$0.14.

To use residual income as a compensating factor, count all members of the household of the occupying borrowers without regard to the nature of their relationship and without regard to whether they are joining on title or the note. Exception: As stated in the VA Guidelines, the mortgagee may omit any individuals from "family size" who are fully supported from a source of verified income which is not included in effective income in the loan analysis. These individuals must voluntarily provide sufficient documentation to verify their income to qualify for this exception.
